

Genesee County is seeking a high quality professional to serve as the County's Public Health Director. This is a high level administrative position involving responsibility for the management of the County's health department. The Public Health Director is responsible for coordinating the all technical/professional services provided under the auspices of the department. Medical consultation is provided by a medical professional. Administrative supervision is exercised over the work of all professional, technical, and other support staff.

Degree/experience requirement: Master's degree in public health or related field and three years of satisfactory full-time, public health administrative experience.
