

Clean, Green, and Healthy Schools Program Registration

The mission of the Clean, Green, and Healthy Schools Program is to help make sure that every child and school employee has a safe and healthy learning and working environment that is clean and in good repair. The voluntary program promotes policies and best practices to manage environmental issues in schools and promote healthy indoor and outdoor environments. We strongly recommend the school Principal's support of this program to allow the entire school to fully participate and benefit from the program.

To register for this program, please complete this form and return to CGHSchools@health.ny.gov.
