Welcome to the April 2021 issue of the Aware Prepare (AP) Update. The AP is your bi-monthly guide to upcoming trainings related to preparedness, readiness and response. These trainings may be provided in one or more of the following formats, including: live webcasts, webinars and in-person training; archived webcasts, webinars and on demand eLearning. Questions or submissions, email: edlearn@health.ny.gov

**Enroll in LMS Course:** [CTI-100](#)

The redesigned Health Commerce System (HCS) became available in March 2010. The HIN and HPN were recreated as the Health Commerce System portal, or HCS. There is no longer a separation between the HPN and HIN.

**Objectives:**  
- Identify the major elements of the HCS architecture  
- Identify the features of the HCS  
- Demonstrate strategies to customize the portal for your own use.

**Webinar:** Yes  
**Average Completion Time:** 1 hr  
**Continuing Education credits:** No  
**Enroll in LMS Course:** [CTI-120](#)

This course provides a solid foundation for adult care facilities, home health agencies, hospices, hospitals, LHCSAs, nursing homes and extension clinics to report data using the HERDS v.3 application. The course will begin with a look at how to obtain access to HERDS and how facilities will be notified when there are activities to be completed. Learners will then be provided demonstration of the new reporting platform. The session concludes with a brief overview of the pre-selected reports available from the application. This course is presented in a one-hour session via WebEx Training Center.

**Objectives:**  
- Locate and modify the person record.  
- Explain the importance of the person record in relation to HERDS.  
- Demonstrate the ability to review assigned roles.  
- Locate and access HERDS.  
- Describe the overall structure of HERDS activities.

**Provider:** NYSDOH Commerce Training Institute  
**Webinar:** Yes  
**Average Completion Time:** 1.5 hrs  
**Continuing Education credits:** No  
**Enroll in LMS Course:** [CTI-200](#)

This course provides a comprehensive review of the Health Commerce System Communications Directory, the underlying records that make up the directory, and the tools all HCS users can use to access the directory. This two-hour course will begin by examining the structure of the directory and differentiating between the actual contact information records stored for each person in the directory, and the facilities and roles those records can be associated with. Once the structure of the directory has been examined learners will review and have an opportunity to practice with the applications used to access the information stored in the directory. At the conclusion of this course learners will be able to:  
- List the components of the Communications Directory  
- Summarize how the components are related and work together  
- Summarize the HCS emergency call down procedure, describing the role the Communications Directory plays.
**New York State Evacuation of Facilities in Disasters Systems (eFINDS) version 3.0**

*Tuesday, April 20, 2021 1-2pm
Wednesday, May 26, 2021 10-11am
Monday, June 21, 2-3pm*

**Provider:** NYSDOH Commerce Training Institute  
Webinar: Yes  
Average Completion Time: 1 hr  
**Enroll in LMS Course:** CTI-502

The New York State Evacuation of Facilities in Disasters Systems (eFINDS) is the patient/resident tracking application housed on the Health Commerce System (HCS).  
This course provides a solid foundation for registering and updating patient/resident location information during an incident or event, such as a storm, flood, non-natural incident or practice exercise/drill.  
Course participants will be provided a demonstration of the eFINDS application including: eFINDS Data Reporter and eFINDS Data Administrator role permissions; how to register a patient/resident with a scanner and without; use a spreadsheet to register multiple patient/residents; update patient/resident tracking information as an evacuating facility, and as a receiving facility. The session concludes with hands-on exercises.

---

**PCEPN-EM101**

**Emergency Management for Primary Care Centers**

Primary Care Emergency Preparedness Network (PCEPN) is co-led by the Community Health Care Association of New York State (CHCANYS) and the Primary Care Development Corporation (PCDC) and was created in close partnership with and support from the NYC Department of Health and Mental Hygiene Office of Emergency Preparedness and Response. PCEPN helps coordinate planning, training, and response services for the New York City primary care community so they can prepare for and respond to community and citywide needs in the event of a disaster or emergency on a local and regional level.

*Please contact the PCEPN team at info@pcepn.org with any questions or concerns.*

This 30 minute pre-recorded course will provide an overview of the four phases of emergency management, the key elements of an emergency management program and plan, staff roles, and the role of the primary care center in emergencies and disasters. This course is recommended for primary care staff of all levels. To receive a certificate of completion for this course please take the pre-test and the post-test.  
*For optimum performance please use Google Chrome to view*
The National Network of Public Health Institutes (NNPHI) is proud to announce its participation in Project Firstline, a collaborative made up of healthcare, public health, and academic partners, as well as 64 state, territorial, and local health departments funded through the Centers for Disease Control and Prevention’s (CDC) Epidemiology and Laboratory Capacity Cooperative Agreement.

Project Firstline’s training and engagement opportunities will include short, accessible training videos, virtual interactive events, and telementoring to ensure healthcare and public health professionals are empowered with the science and reasoning behind essential infection control practices, and can confidently apply those practices to protect themselves, their facility, their family, and their community.

The COVID-19 pandemic has highlighted gaps in infection control knowledge and practice in healthcare settings nationwide. CDC’s engagement of partners, such as NNPHI and the National Association of County and City and County Health Officials (NACCHO), demonstrates the important role of public health and local health departments in advancing infection control.

- Be sure to check out CDC’s Project Firstline Facebook, Twitter, and
- Sign up to get the latest email updates from our Emergency Preparedness, Response and Recovery program as new trainings and tools are released!

Training Opportunity

The Finger Lakes Geriatric Education Center at the University of Rochester Medical Center in partnership with the Ithaca College Gerontology Institute and the National Center for Post-Traumatic Stress Disorder are pleased to present this new online resource to support long-term care workforce during the time of the COVID-19 Pandemic response.

“We know that our long-term care settings have been disproportionately affected by COVID-19 with high rates of infection and mortality of vulnerable residents, while the direct care workforce in these settings have been the unsung heroes providing compassionate care in incredibly challenging circumstances - staffing shortages, PPE shortages, limits on family visitation, and high rates of exposure and infection among health care workers. Our front-line workers deserve the best support and training in these challenging times.”

Thomas V. Caprio, MD, MPH, MS, CMD, HMDC, FACP, AGSF, FAAHPM
Professor of Medicine/Geriatrics, Psychiatry, Dentistry, Clinical Nursing, & Public Health Sciences
Director, Finger Lakes Geriatric Education Center

The online module, Stress First Aid for Long-Term Care, is a self-care and peer support model adapted specifically for long-term care health care personnel.

Scientific Brief: Community Use of Cloth Masks to Control Spread of SARS-CoV-2

Experimental and epidemiological data support community masking to reduce the spread of SARS-CoV-2. The prevention benefit of masking is derived from the combination of source control and personal protection for the mask wearer.

CDC has published a summary of this science and will update it as additional science becomes available. Read the full brief: "Scientific Brief: Community Use of Cloth Masks to Control the Spread of SARS-CoV-2"

### Background

The Office of Health Emergency Preparedness (OHEP) is pleased to announce the release of the updated 2019 evacuation plan template. The 2019 template will serve as a revision to the previously released version.

### Goal

To review the updates and revisions included in the updated 2019 Nursing Home and Adult Care Facility Evacuation Plan templates.

### Target Audience

Nursing Home and Adult Care Facility staff responsible for emergency preparedness and evacuation planning

### Note

Facilities are not required to adopt or use updated templates. It is strongly encouraged for facilities to review the updated documents and include in plan updates as needed or appropriate.

### NYSDOH Faculty

Katharine Logan  
Health Care Preparedness Coordinator

Comprehensive Emergency Management Plan Training Online Training Module

Background
The purpose of the New York State Department of Health (NYSDOH) Comprehensive Emergency Management Plan (CEMP) Training is to provide personnel at adult care facilities across the State of New York with the information and tools to develop a CEMP to prepare for, respond to, and recover from natural and man-made disasters.

Training Objectives
• Facilitate staff familiarity with CEMP purpose, use, development, and implementation.
• Empower facilities to be self-sufficient for 72 hours after an incident.
• Enable facilities’ timely determination and implementation of protective actions.
• Foster collaboration and coordination with facility emergency response partners
• Build the foundation for a risk-based CEMP and emergency preparedness program.
• Empower facilities to use the Incident Command System to respond to emergencies.
• Empower Facilities to identify critical information to protect and disseminate during an incident.

Target Audience
Nursing Home or Adult care facility personnel that will be involved in facility level emergency planning (strongly recommended for Administrators and Safety / Security / Plant Managers).

Prior completion of FEMA IS-100.C strongly encouraged.
Training produced by Hagerty Consulting, Inc.

Training Module
Training delivered though an interactive online module that can be found using the registration information below or by clicking here:

ClinOps-202010 October ClinOps Webinar - CDMS v.7.0 Part II
This webinar will feature a presentation by NYS DOH Division of Epidemiology staff and provide further training on the new Countermeasure Data Management System (CDMS) Version 7.0 application and continued presentation of current functionality and enhancements.

ClinOps-202008 August ClinOps Webinar - CDMS v.7.0 Introduction
This webinar will feature a presentation by Julie Schenkman, Kevin Buettner, and Matthew De Lafayette from the DOH Information and Technology Services providing a preview to the new Countermeasure Data Management System (CDMS) Version 7.0 application planned for introduction this Fall.

This webinar outlines the data from the BP-1X (2018-2019) Site Activation, Staff Notification, Acknowledgement and Assembly and Facility Setup drills that are completed in either HERDS or DCIPHER by all counties as a part of the BPR-10 deliverable. The goal is to provide background information on what data and information the drills provide us, and to take a step further by comparing across regions to determine potential gaps and drive future guidance and exercise development.

ClinOps-201910 Adverse Events: Mitigation, Identification and Reporting
The October 2019 Medical Countermeasure (MCM) Clinical Operations webinar will include the working definition of an adverse event and the prevention and mitigation strategies done through accurate medical screening and onsite quality review. The presentation will include methods to identify adverse events, including side effects, contraindications and administration/documentation errors. Follow up and reporting requirements will also be reviewed. A question and answer period will be made available.

ClinOps-201907 Infection Control and Injection Safety at Points of Dispensing
The July 2019 Medical Countermeasure (MCM) Clinical Operations webinar will provide an overview of required clinical infection control practice standards at Points of Dispensing. This webinar will also highlight safe injection practices, recommendations for POD infection control procedures, oversight of infection control standards and recommendations for Just in Time Training.

ClinOps-201905 Vaccine Management During Emergencies
This webinar will include information related to vaccine storage and handling requirements and cold chain management during an emergency. The presentation will include site selection considerations for storage of vaccine and equipment and temperature monitoring requirements for transport to and from County Staging Site (CSS). Updated vaccine storage requirements for POD site locations will also be highlighted.

# CLIMATE AND HEALTH COURSES

## New York State Department of Health

### Heat and Health in New York State

**Enroll in LMS:** [NYSDOH-Climate1](#)

"**Heat and Health in New York State**" is intended to educate social service providers and community leaders in preventing heat’s adverse health effects among vulnerable populations.

### WIC and Climate Change in New York State

**Enroll in LMS:** [NYSDOH-Climate2](#)

"**WIC and Climate Change in New York State**" describes the impacts of climate change and what it may mean for WIC programs. Both courses provide evidence of the climate changing, how people may be affected, and resources or mitigation strategies in response to the changing climate.

### Climate Change and Public Health 101 - Northeast Edition

**Enroll in LMS:** [BRACE-Climate101](#)

20 minute online course! This course focuses on the public health impacts from climate change that are of most concern to the Northeast and what local health departments can do to mitigate and prevent them.

### NYS Department of Health: Climate & Health Profile (Originally Aired March 30, 2016)

**Enroll in LMS:** [Reg2PHTC-Climate1](#)

Presenter: Asante Shipp Hilts
The webinar will describe the changing NYS climate, climate-related health impacts, vulnerable populations, methods for assessing vulnerability, challenges and opportunities, existing NYS initiatives and collaborations, and implementation of the NYSDOH Climate and Health Strategic Map.
## Crisis and Emergency Risk Communication (CERC)

**Provider:** Centers for Disease Control & Prevention  
**Course Updated:** 6/26/2018  
**Average Completion Time:** 2hrs  
**Continuing Education:** 0.2 CEUs  
**Enroll in LMS Course #:** [CDC-CERC-01](#)

At the conclusion of the training, the participant will be able to do the following:

- Explain Crisis and Emergency Risk Communication (CERC) principles.
- Describe the psychology of a crisis and the type of messages each audience needs.
- Explain how to tailor messages.
- Define core concepts of crisis communication planning.
- Explain the roles of the media and spokesperson.
- Describe the benefits of social media and mobile media devices.

## SNS Overview

**LMS Course Completion Requirement:**  
“Message” TRAIN Certificate to Course Administrator  
**Continuing Education:** 1 CHES; 1 CME; 0.1 Continuing Nursing Education; 1 MCHES  
**TRAIN CE Course #:** WB 2273 Course ID 1041004  
**Enroll in LMS Course #:** [SNS-101](#)

The course is designed to provide basic background information and definitions of federal agencies, stakeholders and other partners that will help understand all SNS operations during a public health event. The SNS Overview Course will fill the professional practice gap by providing the states and local agencies with information to manage SNS assets that may be deployed to sites during a public health emergency. The participants will learn the levels of support provided by the SNS, and the response concepts, the planning functions needed for consideration and operational requirements for receiving, distributing and dispensing of SNS material.

## Closed Point of Dispensing Considerations: an SNS Perspective

**LMS Course Completion Requirement:**  
“Message” TRAIN Certificate to Course Administrator  
**Continuing Education:** 1.5 CME; .14 ACPE-Contact Hours; 1.4 ANCC: Contact Hours Continuing Nursing Education; 1.5 MCHES  
**TRAIN Course ID:** 1055915  
**Enroll in LMS Course #:** [SNS-103](#)

The Closed POD Planning course provides state and local agencies with information to manage Closed POD sites during a public health emergency. It covers planning functions for designing a system to quickly dispense prophylactic medications to the employees and their families. The course introduces common terminology and concepts of mass dispensing at the community level. Some locations may use other terminology.
### CDC-RAD

**Radiation Basics Made Simple**

- **Average Completion Time:** 1.5 hrs
- **Continuing Education:** 0.1 CEUs, 1.4 CNEs, 1.5 CMEs
- **Enroll in LMS Course #:** [CDC-RAD](#)

The Centers for Disease Control and Prevention, Radiation Studies Branch announces the launch of *Radiation Basics Made Simple*, the first in a series of radiation preparedness training modules. *Radiation Basics Made Simple* introduces participants to the fundamentals of radiation and radioactivity.

### CDC-PSYCH

**Psychological First Aid in Radiation Disasters**

- **Average Completion Time:** 1.25 hrs
- **Continuing Education:** 0.1 CEUs, 1.2 CNEs, 1.25 CMEs
- **Enroll in LMS Course #:** [CDC-PSYCH](#)

*Psychological First Aid in Radiation Disasters* is a self-study training that uses interviews conducted with experts involved in the Goiania and Three Mile Island incidents, and video scenarios that allow participants to observe how psychological first aid techniques can be employed in a variety of response settings.

### CDC-MYTHS

**Communicating in Radiation Emergencies: Myths of Radiation**

- **Provider:** Centers for Disease Control and Prevention
- **Average Completion Time:** 1 hr
- **LMS Course Completion Requirement:** “Message” Certificate to Course Administrator
- **Continuing Education:** 0.1 CEUs
- **Enroll in LMS Course #:** [CDC-MYTHS](#)

Communicating in Radiation Emergencies: Myths of Radiation introduces participants to some common myths of radiation and identifies communications strategies to combat these and other myths. The training uses Person-On-The-Street interviews to identify the myths and features a discussion between risk communication and radiation subject matter experts to set the record straight.

**OBJECTIVES:** At the conclusion of the session, the participant will be able to:

- Describe seven common misconceptions associated with radiation.
- Debunk seven misconceptions using science-based explanations.
- Discuss one strategy to communicate accurate information during a radiation emergency for each misconception presented.
Packaging and Shipping Division 6.2 Materials Online Course

LMS Course Completion Requirement: “Message” TRAIN Certificate to Course Administrator
Continuing Education: 2 CEUs
Course ID 1017204
Enroll in LMS Course #: CDC-PS2014

Who Should Attend:
This course is intended for those learners seeking recertification in packing and shipping of infectious substances (Division 6.2 materials). This course does not apply to individuals seeking initial certification.

Packaging and shipping Division 6.2 materials, such as patient specimens containing infectious materials and cultures, are regulated by U.S. and international transport agencies. Fines and penalties can be imposed against those who fail to comply with the applicable rules including proper classification and documentation of training, proper packaging, marking and labeling and proper shipping documentation. Updated for 2014, this intermediate-level online course, designed for individual study, is suitable for those seeking re-certification. Participants are provided with information useful for complying with regulations through use of instructional content and the opportunity to apply knowledge using realistic scenarios. This course should take approximately 2 hours to complete.

Objectives: At the conclusion of this program, the participants will be able to:
• Classify specimens as an exempt human or animal specimen or either category A or category B infectious substance.
• Identify basic packaging concepts and processes for exempt human and animal specimens, category A and category B infectious substances and dry ice.
• List the documents required to accompany packages containing category A and category B infectious substances.
• Describe the documentation process for category A and category B infectious substances including specific differences dependent upon mode of transportation.

RSS-101

Receiving, Staging, and Storing (RSS) Training Video

LMS Course Completion Requirement: “Message” TRAIN Certificate to Course Administrator
Course ID 1017208
Enroll in LMS Course #: RSS-101

This 14-minute videoarchive provides an overview of receiving, staging, and storing (RSS) Strategic National Stockpile (SNS) assets in the event of a public health crisis. It is designed to pro-vide information to organizations and personnel involved in Strategic National Stockpile RSS functions.
### FEMA IS-100.C

**Introduction to Incident Command System**

| Provider: FEMA Independent Study | | ICS 100, Introduction to the Incident Command System, introduces the Incident Command System (ICS) and provides the foundation for higher level ICS training. This course describes the history, features and principles, and organizational structure of the Incident Command System. It also explains the relationship between ICS and the National Incident Management System (NIMS). |
| Course Updated: 6/25/2018 | | |
| Average Completion Time: 2hrs | | |
| LMS Course Completion Requirement: | “Message” FEMA Certificate to Course Administrator | |

### FEMA IS-700.B

**National Incident Management System (NIMS) An Introduction**

| Provider: FEMA Independent Study | | This course provides an overview of the National Incident Management System (NIMS). The National Incident Management System defines the comprehensive approach guiding the whole community - all levels of government, nongovernmental organizations (NGO), and the private sector - to work together seamlessly to prevent, protect against, mitigate, respond to, and recover from the effects of incidents. The course provides learners with a basic understanding of NIMS concepts, principles, and components. |
