

Fall 2022 Virtual Climate & Health Adaptation Workshops

To move the needle forward on addressing the health impacts of climate change, NYSACHO and NYSDOH are hosting virtual workshops. At the workshops, local health departments (LHDs) and their community partners will hear updates and examples of climate adaptation activities, and then work together on next steps that fit the priorities and resources of their agencies and organizations.

These workshops will be held in [Zoom](#) and are **free to attend!**

Who Should Attend?

LHD staff who are:

- Responding to impacts in their communities (e.g. extreme heat, flooding, food insecurity, vector-borne disease)
- Interested in starting or expanding climate and health adaptations
- Interested in learning more about what others may be doing in this area

Community partners who are working or might be interested in working on climate adaptation activities:

- Local government agencies (e.g. sustainability offices, town leaders, planning departments)
- Organizations (e.g. Cornell Cooperative Extension, school groups, faith-based communities)
- Other climate adaption champions, such as Climate Smart Community Coordinators!

How to Register

Click on the links below to register for the plenary sessions and one or more topic-specific workshops.

Plenary Sessions (9:00 - 11:00 AM) | [Click here to register for both sessions!](#)

These sessions will provide updates and set the stage for the topic-specific workshops.

Sept. 29: Part I - State and Local Highlights

Sept. 30: Part II - Cross-Cutting Issues

Note: Plan to attend both parts of the plenary!

Topic-Specific Workshops (9:00 AM - 12:00 PM)

Each workshop will provide a content overview, followed by breakout sessions for LHDs and their community partners. LHDs and topic-specific partners can register for one or more of these workshops.

Oct. 26: Extreme Heat, Weather Vulnerability | [Register here](#)

Oct. 27: Flood Mitigation, Storm Response, Emergency Response Framework | [Register here](#)

Nov. 2: Complete Streets, Climate Smart Communities, Environmental Improvements | [Register here](#)

Nov. 3: Vector-Borne Diseases, Harmful Algal Blooms, Food Security | [Register here](#)
