<b>12:00 PM</b>	<b>Meeting Concludes</b>

## Subject Matter Expert Information

**Melissa Prusinski, Jim Hyde, Courtney Davis, and Ashley Inzerillo** will be available throughout the workshop as subject matter experts to answer technical questions and provide support as needed to counties during the breakout sessions. Melissa is a Research Scientist and Laboratory Supervisor at the NYS Department of Health Bureau of Communicable Disease Control, Division of Epidemiology. Jim and Courtney are Research Scientists at the NYS Department of Health Bureau of Water Supply Protection. Ashley is a Program Manager with the Source Water Assessment and Protection Program at the NYS Department of Health Bureau of Water Supply Protection.

## Breakout Discussion Questions for Early Contemplation!

- What is your climate and health priority area(s)?
- What adaptation would you like to focus on?
- Are you expanding on an existing activity or starting something new?
- Are you the responsible entity for this adaptation or a “seat at the table”?
- Who else is working on this issue in your agency? In your community?
- Who else could/should be a partner?
- What are your next steps and what do you need to make it happen?
